Velkommen
VILD HAVE
MENTORENE MØN

A UNESCO biosphere reserve is a unique landscape and characterized by a wide variety of landscapes and species, including many particularly vulnerable animals and plants.

In the Møn Biosphere Area you have the unique opportunity to discover more about biodiversity and experience it in a way that has to be experienced. Therefore, you should always pay attention to the local flora and fauna and contribute to nature protection and also to register species by sharing your species discoveries with us.
